WALL STREET, THURSDAY, Sept. 11—6 P. M. } THE FOREIGN MARKET.

Contrary to expectation the Bank of England did not to-day change its rate of discount. It, therefore, remains at 3 per cent, with discounts in the open market at about the bank rate. There has been a loss to the bank during the week of £49,000 bullion. In France, the specie of the National Bank has increased 7,000,000 of francs. Rentes are firmer in Paris. London advices report consols and American securities quiet and steady. Erie is reported at 48%. The bullion withdrawn from the Bank of England to-day, amounts to £100,000. In Amsterdam Central Pacific first mortgage bonds are quoted at 85%: Union firsts. 69: Northwestern preferred, 70%; St. Paul preferred, 69; Erie, 52%, and Union Pacific stock at 22%. THE MONEY MARKET.

No change has been exhibited in the money circles during the last twenty-four hours, and we still quote the rate of loans on call collaterals at 6 a 7 per cent on government bonds and 7 a 7, gold, on railway shares. Mercantile paper is unchanged. Foreign exchange was steady at 108% a 108% for prime 60 day sterling and 109% for sight. Commercial bills are quoted at 107% a 108. GOLD STEADY.

The gold market is not in a condition which war rants much comment. The short interest varies from hour to hour, according to the fluctuations, and the play is as rapid and changeable as that of a gambler with cards. It is said that quite a large number of merchants and importers have "covered" around the present prices, while others have entered the speculative field consident of a reaction. If it does not occur it will be astonishing. The street is now apparently more at sea and less able to calculate on contingencies than when its reins were held by Mr. Jay Gould. There is neither leader, daring, firmness nor results. Every one is looking for a rally, asking his neighbor when it will or why it don't come, and altogether the market is in a muddle equal to that of Stephen Blackpool. It cannot be a long time, however, before "hard pan" is touched, and those who are lucky enough to recognize the point will make money. The rates paid for carrying to-day were 1, 2, 3, 5, 6 and 7 per cent, with latest rate at 4 per cent to flat for borrowing. Gold leans on time are quoted at flat to % to carry for 30 to 60 days, % for the year and % for 6 months. The prices of gold to-day were:-

The specie THE NEW YORK WAREHOUSE AND SECURITY COMPANY

was represented in a meeting of its creditors today; but, as far as can be ascertained, nothing definite was arrived at. Affairs were in such a condition that they could not be satisfactorily communicated to the press, and, after much ver bal discussion of the situation, it was determined to adjourn the subject to a call by the chairman. The public must, therefore, be content with a report of "progress," whatever that means. GOVERNMENT BONDS.

Somewhat more of activity was manifested in government securities, and prices showed much steadiness, notwithstanding the discouraging influences of the market elsewhere. THE STOCK MARKET.

There have been few occasions during the year when so much difficulty attended a fair description of the market as at the present time. The condi tion is anomalous. Stocks which three or four weeks ago were the Koh-i-noors of speculation and scintiliating all over with promises of recom pense, are to-day among the veriest drags of the street. The then prophets are now out of pocke and among the bears. On the other hand the the bears are doubting whether or not prices have touched bottom—whether it is not about time to change their base and anticipate what is even tually certain to occur. Prices to-day were trifle better than yesterday, but it is hardly safe to trust them yet. Well, as the marke has been sustained, it is always to be borne it mind that it is easier to tear down than to build up, and that the banking and mercantile commu nity at present are in a condition to afford sense tions when least expected. A sense of calamity indescribable and possibly superstitious, overhang the street-a vague, intuitive expectation of something that is to be, but is not yet; and thi feeling of itself acts as a clog upon ventures, which under more favorable conditions, might prove a entering wedge to successful speculation. The ex ceptional decline to-day reached 21/2 per cent Later there was recovery, but the whol undertone was one that suggested shocks and spasms. Prices are tempting, and in the degree dangerous, since they seem to occupy an equator rial line that is thoroughly deceptive, as has been proved by the events and the records of the pas four or five days. The widest changes to-day were in Wabash, which declined from 6314 to 61 recovered to 63%, receded to 62% and left off a 62% a 62%. Western Union was also erratic, rising from 88% to 88% in the early dealings, then de clining to 87%, rallying to 88%, reacting to 88%, improving to 89% and closing at 88% Lake Shore and New York Central were noticeably firm, the former ranging from 90% to 91% and the latter from 103% to 103%, the highest quotations being made at the close. Pacific Mail sold at 41% a 41% a 41 a 41% a 41% a 42%, Union Pacific a 25% a 25% a 23% a 24%, St. Paul common at 46% a 45% a 46% a 45% a 46% a 46%, Northwestern common at 59 a 58 a 59%, do. preferred, at 78 a 78% a 78% Ohio and Mississippi at 3714 a 3774 a 37 a 3734 a 3734, Rock Island at 10634 a 10634 a 10534 a 10634 C., C. and I. C. at 28% a 28% a 28%. Erie a 58% a 59% a 58% and Harlem at 129 a 128% a 129 Canton sold at 85 a 82 a 85, closing firmer, the offer ings being at 90. Delaware, Lackawanna an Western sold at 98% a 99. Panama closed at 115% Hariem at 129. It may be added that fresh capita is being invited into the street by these low prices and that the men who have backbone to "go in at these low figures are bound to win, some of the latter being lower than they have shown them selves on the record of many years.

Cotton Firm - Flour Steady - Wheat Lower-Corn Unchanged-Oats Firm-Provisions Quiet-Groceries Firm-Coffee Higher-Petroleum Nominal-Naval Stores Dull and Nominally Steady-Whiskey Unchanged, THURSDAY Sept. 11-6 P. M.
The low ruling of gold has tended to cause some

disturbance in the merchandise markets, and in ome cases values are lower. The unsettling of the wheat market was in part attributable to this cause as likewise the decline in certain other commodities. The rates on 'Change to-day were with out decided change. Flour was quiet and in buyers' tavor. Wheat was only in fair request at a decline of 2c. Corn was firm, but only in moderate demand. Oats were quiet but firm. Provisions were generally quiet, but not essentially changed in value. Groceries were firm, particularly coffee, for which higher prices were demanded. Cotton was in fair demand, and firmer for future. Petroleum remained dull and nominally unchanged. Naval stores were neg-lected and entirely nominal. Whiskey was quiet and

corrow.—The market for cotton on the spot was very firm, under a fair demand and light offerings. The crop

of 1872-3 foots up 3,930,508 bales. We quote :-consummated at an advance of Mc. for September and Sec. for October, the market closing with an upward ten-dency for these months. The later months were inactive, without essential change. The sales were :—

Comptroller Green yesterday received demands

for the payment of the salaries of Gratz Nathan, as first Clerk of the Corporation Attorney, in the sum of \$3,000, and Thomas Barclay, as Interpreter of the Second District Police Court, for \$2,700, and orders to show cause in the cases of William C. Traphagen and John McClave, Commissioners, claiming \$5,000 each, and James Hogg, Clerk, \$1,500, in the proceedings for opening a public road north of 155th street in 1870-71. Gratz, Nathan, known to the Bar as "My Gratz," filled public office in several capacities as referee, commissioner of numerous street-opening proceedings and attaché of the office of the Corporation Attorney; but Comptroller Green fails to see the need of his multitarious services and refuses to pay him for more than one position occupied by him at the time. Barclay was appointed without any authorization, as required from the Boardo! Supervisors, and, the Comptroller claims, is unable to perform the alleged duty. The street-opening case is the second of a series in the first of which the Commissioners laid claim to \$7,500 each. The compensation they claim is said to be vastly in excess of that authorized by the statute of 1882. Their clerk, Hogg, was an attaché of the office of George H. Purser, clerk of street-openings. claiming \$5,000 each, and James Hogg, Clerk,

of the office of George H. Purser, clerk of streetopenings.

Ex-Corporation Attorney Thomas C. Fields has
also flied a claim by his assignce for his salary for a
little over a year, claiming the sum of \$17,750 as
recompense for his services during the latter part
of 1871 and most of the year 1872.

Donglas Taylor, Commissioner of Jurors, has also
presented a claim for certain printing done for
the Dock Department, but has been refused payment by the Comptroller because as a city and
county officer he was forbidden by the charter to
be interested directly or indirectly in supplying
articles or material to be paid for out of the city
treasury.

AN IMPORTANT ORDER. The Commissioner of Public Works has sent the

following notification to all the heads of bureaus in his department:-

in his department:—

Sir—You are hereby required to urge to completion all works now in progress in your bureau, where assessments are to be levied upon the property benefited, to the end that the large amount of interest paid by the city on "assessment bonds" and "assessment fund bonds" may be materially reduced, and for the same purposes you will transmit to this office at once all final certaincates of work completed, that the assessment lists may be forwarded for confirmation and collection.

GEORGE M. VAN NORT.

DEPARTMENT OF DOCKS.

A meeting of the Department of Docks took place yesterday afternoon. There were present Com-missioners Westerveit, Gardner and Budd. The Executive Committee having failed to report anything to the Board no action was taken. A few unimportant communications were received, but were reierred to the Secretary, and will be reported to the Board at the regular meeting next week. The Board taen went into executive session.

THE CENTRAL COUNCIL.

The Problems of Labor Reform. The Workingmen's Central Council, formed during the labor and strike movement last spring to agitate for the ultimate enforcement of the eight hour system, held a meeting at Masonic Hall last night, when George Cavanagh presided; and the representatives of two additional trade unions were admitted—of the Brass Finishers' Union and of the first branch of the Amalgamated Carpenters and Joiners—three delegates from each. The resuits of the late demonstration at the Cooper Institute were discussed and characterized as a great success, although, in

and characterized as a great success, although, it was stated, many were there expecting and desiring the same to be a failure.

In reply to a letter in the Treasury Department; at Washington, complaining of a violation of the Eight Hour law by the painters and others working upon the Sub Treasury building, in this city, a communication was received from Secretary William A. Richardson, in which he stated, "I have to inform you that, the work being done by a contractor, this department has no jurisdition whatever over his employes, and no ruling or regulation in this department or law gives any power to direct the number of hours that the contractor's employed, shall be engaged upon public work. A subsequent note from the Treasury Department informs the Council that in the law governing contractors there is no provision that allows them fifteen percent additional in lieu of the reduction of hours from ten to eight, as was assumed in a note addressed to the department.

The Central Council is at present composed of the representatives of twelve labor unions, and six other unions which participated in the late mass meeting are expected to join.

WINE AND SPIRIT TRADERS.

The Wine and Spirit Traders' Society of the United States held a special meeting yesterday af-ternoon at two o'clock, in their new rooms, No. 35 Beaver street, for the purpose of adopting the constitution and bylaws drawn up by the special committee of the council. There were about forty members present, and Mr. Charles Beliows premembers present, and Mr. Charles Bellows presided as chairman and Mr. Philip Bonfort filled the position of secretary. The old constitution of the society was found to be defective under the charter recently granted by the State Legislature, and therefore, a new one was necessary. The usual order of business was dispensed with, and the Secretary having read the constitution, it was adopted without a dissenting vote. The bylaws were read and adopted by sections, with a few slight amendments after which the meeting adjourned.

The rooms of the society will be open every day from ten A. M. until three P. M.

CIVIL SERVICE EXAMINATION.

Another competition for various offices, from Night Inspector at \$3 per diem to clerkships at \$2,000 a year, was held yesterday in the Civil Service rooms of the Custom House. Eleven candidates appeared for examination, among them seve eral outsiders, who competed for \$1,200 cierkships, special Deputy Collector John R. Lydecker conducted the examination. The Chairman of the Commission, Postmaster James, being too much engaged in his own department to pay a great deal of attention to the above named test, remained only a short time, while Mr. Benedict did not attend at all. The average intelligence of yesterday's class of applicants was of a very high order, and those who are fortunate enough to obtain an appointment will reflect credit on the service. Since the Civil Service code has been adopted here the appointments in the Custom House have been of a very high order, and relect credit upon the department. The Commissioners are busily engaged in examining the merits of each candidate, and as soon as the relative standard can be ascertained and the Collector apprized of the facts the appointments will be forwarded to the Treasury Department for confirmation. eral outsiders, who competed for \$1,200 clerkships,

THE COMMITTEE OF STATE CHARITIES The Committee of State Charities met yesterday morning in the Bible House. The following members were present:—Commissioners Pruyn, Ander son, Bishop, Titsworth, De Graw, Sherman, Miller, Ordronoux and Attorney General Barlow, Secretary of State Scribner and Comptroller Hope tary of State Scribner and Comptroller Hopkins. Ex-officto Commissioner John V. L. Pruyn took the chair, and Dr. Charles L. Hoyt was appointed Secretary. The first business brought before the Board was the consideration of the report of the committee appointed on the 6th of June last to provide visiting committees for the different charitable institutions in the State as aids of the Board. After considerable time spent in discussion on this point, it was resolved to appoint such committees in such committees as from time to time the Board may think necessary. This was done in accordance with an act of the Legislature passed May 21, 1873. It was resolved that the visiting committees should in the different counties consist of three, or else multiple of three persons, and general rules and regulations were established for the guidance of the visitors.
